

Enabling Macros for Loss Triangulations

The screenshot displays the Microsoft Excel interface with a security warning and a dialog box. The warning bar at the top states "Security Warning Some active content has been disabled." with an "Options..." button. A red circle highlights this warning. The dialog box, titled "Microsoft Office Security Options", contains a "Security Alert - Macros & ActiveX" section. It explains that macros and ActiveX controls are disabled and provides a warning: "Warning: It is not possible to determine that this content came from a trustworthy source. You should leave this content disabled unless the content provides critical functionality and you trust its source." The dialog offers two options: "Help protect me from unknown content (recommended)" and "Enable this content", with the latter selected. The background Excel window shows a worksheet titled "Q1-2013_ALL_CODES_RUN_REPORTS_settccy" with a ribbon including "Developer". The worksheet content includes a header "LMA LOSS RATIO TRIANGULATIONS", a logo, and a section for "All Lloyd's Risk Codes: display". A dropdown menu is set to "FA FINE ART" and a green button reads "CLICK to DISPLAY REPORT". A "Notes:" section at the bottom states: "The LMA provides a range of loss ratio reports (20 year triangulations".
