15<sup>th</sup> November 2017

## Misappropriation Clauses

Following the release of the Misappropriation Clauses JC2017/002 and JC2017/003 in March this year, observations have been made that the clauses could also be considered applicable to goods stored in the ordinary course of transit.

To address this, slight amendments have been made to clarify the position, as per the clauses below.

JC2017/010                      **Misappropriation Exclusion Clause - (Amended 15/11/2017)**

JC2017/011                      **Misappropriation Inclusion Clause - (Amended 15/11/2017)**

It should be noted that these clauses are purely illustrative and different policy terms and conditions may be agreed.

Additionally, the JCC has drafted a Commodities Questionnaire in order to assist all parties concerned in further understanding and evaluating the extent of risks faced with cargo in storage.

JC2017/012                      **Cargo Physical Loss or Damage Commodities Questionnaire**

The clauses and Questionnaire are attached and are available on the Lloyd's Wordings Repository for immediate use, where appropriate.

**Philip Norwood**  
Secretary

*A Joint Committee of the LMA and IUA*
